Walmsleys New Team Members

Leading Wigan-based Commercial Insurance Broker, Walmsleys Commercial (WCIB), are pleased to announce further expansion to their successful operation.

Phil Wall has joined the firm from Wallwork Jenson and Charter, who are based in Preston, and is an addition to the ever expanding commercial team. Geoff Ditchfield has re-joined the firm in the same role. Phil and Geoff's roles will be focussed on client development in the area. Chris Lawson has also joined the WCIB commercial team as an Account Executive and will support Phil and Geoff in their new roles.

Another addition to the WCIB team is Abid Nazir, formerly with Carole Nash. Abid's role is to further enhance the service to the motor trade sector from car repair shops to car sales operations. Abid's main area of expertise is motor cycle dealers.

WCIB have been extremely successful in providing extensive Motor Trade Policies to the UK market that are around 10-40% cheaper than the competition. Martin Bellamy, Joint Managing Director of WCIB states "Increasing our team with this talent when a lot of firms are making redundancies shows our commitment to not only competitive insurance, but also our unrivalled customer service. We have been established since the 1920's so clients can be rest assured that we are here to stay!"

Walmsleys are also upgrading their website in the New Year to offer clients an interactive medium for advice and online quotes.
